PROJECT
"EUROPEAN MOBILITY FOR THE FUTURE CREATORS OF WEB PAGES"/ "EU-Mob 4 Web"

NEWSLETTER no. 5   June, 2015

ACTIVITIES CARRIED OUT WITHIN THE PROJECT

FROM APRIL TO JUNE 2015

THE SECOND MOBILITY FLOW WITHIN THE PROJECT

13-28 April 2015

- 18 participants, students from classes 11 A and 11 B, matematics-informatics profile
- Two accompanying teachers with monitoring responsibilities: Mihaela Diaconescu and Mihaela Păduraru
- 14-27 April 2015 – training internship – training activities and internship, within the receiving organization Agrupamento de Escolas de Barcelos and companies from Barcelos – Portugal
- Trainer: Magalhães Ricardo

Monitoring

Monitoring instruments completed by the participants
- Daily reflection sheet

PROJECT
"EUROPEAN MOBILITY FOR THE FUTURE CREATORS OF WEB PAGES"/ "EU-Mob 4 Web"

- Internship journal

- Internship journal – cutural visits

  Monitoring instruments completed by the teachers with monitoring responsibilities

- Centralizer of the daily reflection sheets completed by the students (daily completed by teach. Mihaela Păduraru)

- Monitoring journal (daily completed by teach. Mihaela Diaconescu).

Monitoring Journal - internship training (in short)

Day 1: Tuesday, 14th April 2015, Agrupamento de Escolas de Barcelos

The trainer Ricardo Magalhães presented to the students rules specific to working in the computer laboratory and his own professional portfolio (143 webpages designed for different customers). The students took the initial assessment. They presented basic notions related to the graphics of the project and websites.

Day 2: Wednesday, 15th April 2015, Agrupamento de Escolas de Barcelos

The trainer Ricardo Magalhães interactively and professionally presented notions related to composition, size and the format of the website, advertising and publicity, bookmarks for text formatting, working with lists and tables. The participants applied the information received in designing their own websites.

Day 3: Thursday, 16th April 2015, Agrupamento de Escolas de Barcelos

The trainer Ricardo Magalhães interactively presented to the students concepts related to the graphics of the project and site layout, size and format of the site, external links, internal links and working with images. The participants designed a web page similar in appearance to the homepage of the website Twitter and used concepts of JavaScript, CSS etc.

Day 4: Friday, 17th April 2015, Agrupamento de Escolas de Barcelos

The trainer Ricardo Magalhães presented notions of solutions for designing a site, testing different methods to create a site, graphic designs for creating websites, frames, dividing a frame, uploading files into frames. The participants worked in groups of two and applied the knowledge they had

PROJECT
"EUROPEAN MOBILITY FOR THE FUTURE CREATORS OF WEB PAGES"/ "EU-Mob 4 Web"

acquired to customize their sites: solutions for creating websites, concepts of JavaScript, gallery design, using Photoshop in developing a webpage.

Day 5: Monday, 20th April 2015, Agrupamento de Escolas de Barcelos

Summative evaluation of the participants' work was done after the first week of the course. The trainer Ricardo Magalhães continued presenting different solutions of creating a site, testing different methods to create a site and graphic designs for designing websites. The trainer presented different concepts related to the introduction of a form and the elements of a form and styles in CSS syntax. The participants worked with forms, transitions, used instructions in JavaScript, CSS and HTML. They were presented JQUERY language for designing a gallery. They set the themes of the projects to be developed by the participants and the companies for which the participants were to develop web pages.

Day 6: Tuesday, 21st April 2015 – Day 9: Friday, 24th April 2015, INDOT- IT Company

The participants developed their projects which consisted in designing a webpage, either focused on presenting the IT Company INDOT, or related to the mobility experience.

Every day, the participants, grouped in pairs, were guided by Ricardo Magalhães, the main programmer and owner of the IT Company INDOT- in designing the webpage.

Day 10: Monday, 27th April 2015: Each team formed of two participants presented their websites, in an open seminar. The final evaluation of the project took place and certificates of participation in the mobility were handed over.

CULTURAL VISITS

Saturday, 18th April 2015: Porto (the city tour, the cathedral, the railway station, boat trip on the river Douro) and Vila Nova de Gaia (the Offley cellars)

Sunday, 19th April 2015: Guimaraes (the Castle) and Braga (the city tour, Bom Jesus Cathedral)

Saturday, 25th April 2015: Spain- Santiago de Compostela – Spain (the ancient city centre and the cathedral)

PROJECT
"EUROPEAN MOBILITY FOR THE FUTURE CREATORS OF WEB PAGES"/ "EU-Mob 4 Web"

Sunday, 26th April 2015: Ponte de Lima – the oldest city in Portugal (the city tour, the medieval bridge, gardens, Igreja Matriz church) and Viana do Castelo (the city tour, Santa Luzia Church)

ACKNOWLEDGEMENT OF SKILLS ACQUIRED DURING THE TRAINING INTERNSHIP

On returning from the mobility, the participants presented their projects in an open seminar held in the college, on 06.05.2015, with the aim of acknowledging the skills acquired during the training internship. The seminar was attended by students from the two classes XI A and XI A, Mathematics-Informatics, IT teachers and the coordinator of the project.

DISSEMINATION OF THE PROJECT RESULTS

Dissemination of the project results in print and online

- 29.05.2015 – submission of the project promotion article on the discussion group dedicated to the teachers responsible for community projects in schools from Dâmbovița County.
  responsabili_programe_db@yahoogroups.com

- 12.06.2015 –article submission to promote the project "Nicolae Titulescu National College, new European experiences" to the editiorial office of "Graiul Dâmboviței" magazine, edited by the Teacher Training Department – Dâmbovița County.

- 16.06.2015 – article submission "A new mobility flow within the project EU-Mob 4 Web developed by Nicolae Titulescu National College", to the editiorial office of the Newsletter of Pucioasa town.

PROJECT
"EUROPEAN MOBILITY FOR THE FUTURE CREATORS OF WEB PAGES"/ "EU-Mob 4 Web"

Dissemination of the project results in the institution

- 12.05.2015 – dissemination activity in the mathematics-informatics methodical committee of the college / Mihaela Păduraru;

- 16.06.2015 – dissemination activity within the meeting of the Parents' Representative Council of the college / Diaconescu Mihaela, project coordinator;

- 19.06.2014 – dissemination activity within the Teachers' Council of the college /Mihaela Diaconescu, project coordinator;

Mihaela Cristina Diaconescu, project coordinator

Deputy Headmistress of "Nicolae Titulescu" National College
